Please review and double check the unit's Inventory checklist to make sure all components are included

Place gun vault in vehicle like shown in picture below. You will want to line tabs up with the seat mount brackets.

Then take a rubber mallet or a dead blow hammer and tap the tabs into place as shown in picture.

Then use the self-tapping screws [2 10x1 PPH SDS S/S] to attach the vault to the truck.

When it's complete it will like above.
